

G. W. PARKER, M. D.,
1404 SOUTH SIXTH STREET.

HOURS: { 7 TO 9 A. M.
2 TO 3 P. M.
7 TO 9 P. M.

Philadelphia, Dec. 28 1894

Dear Sir,

Mr. Lorney of No. 1020 So. 18th St. was in your employ, desires me to write, and inform you of his condition. He is paralyzed on the left side, and in a bad way generally, he is very anxious that you should know his condition, and that he intends to be back to work before long, this worrying is with him all the time, and if you would let him know that you are not impatient, and that it is your desire that he should take all the time he needs to get well right, it will do more

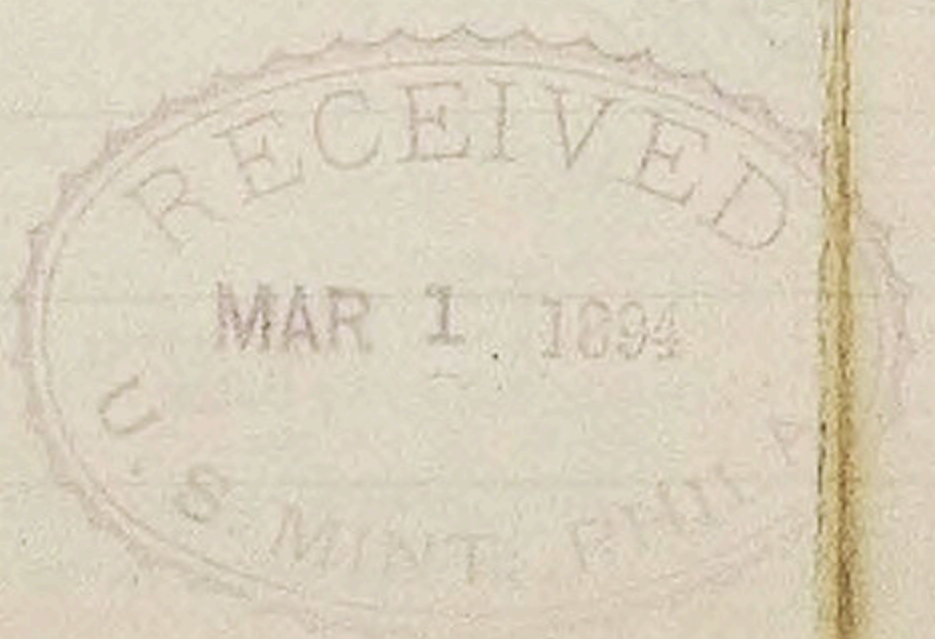

Good than the medicine which
 he takes, he can not sleep for
 it and is continually asking
 me to get a time when he will
 be able to be back, I should
 have written before, but thought
 it was useless to bother you
 but he insists and I do it to
 oblige him.

Yours very truly
 S. H. Parker
 Col. Brooks

Yours very truly

S. H. Parker, M.D.

Dear Sir

Mr. Forney of No. 1020 So. 18th St. was in your employ, desires me to write, and inform you of his condition. He is paralyzed on the left side, and in a bad way generally, he is very anxious that you should know his condition, and that he intends to be back to work before long, this worrying is with him all the time, and if you would let him know that you are not impatient, and that it is your desire that he should take all the time he needs to get well right, it will do more good than the medicine which he takes, he can not sleep for it and is continually asking me to set a time when he will be able to be back. I should have written before, but thought it was useless to bother you but he insists and I do it to oblige him.

Yours very truly,
G.W. Parker
